*Closed Aug. 30-Sept. 17*

### Cheatham St. to Close between E. Hopkins and Rio Vista

The City of San Marcos will close Cheatham Street between East Hopkins Street and Rio Vista beginning Monday, August 30, 2010, at 7 a.m. to begin a water line bore under Hopkins. The street will remain closed to through traffic until September 17, 2010.

Residents and businesses located in the construction zone will have access to their property and mailboxes during construction. All other through traffic will be detoured to the I35 frontage road, Riverside Drive and Hopkins to avoid the area.

The construction is part of the \$8.5 million Rio Vista Terrace Neighborhood infrastructure project currently underway. Other

ongoing project construction includes the installation of storm sewer, water services and wastewater services on Haynes Drive, Rio Vista and McKinnon.

Texas Sterling Construction Company of Austin began work in March on the neighborhood infrastructure project that will alleviate drainage issues and provide new

streets, curbs, sidewalks, water service and wastewater service to more than 300 families and 25 businesses.

Project management is provided by Bain Medina Bain of San Antonio with Byrn & Associates of San Marcos as project engineer. The Rio Vista Terrace construction is scheduled for completion in spring 2012.

For more information on this project, call the City of San Marcos Capital Improvements Department at 512.393.8130 or email [cip@sanmarcostx.gov](mailto:cip@sanmarcostx.gov).
